Shohanur Rahman

Full Stack Web Developer

Kushtia, BD | shohanurrahmandev@gmail.com | <u>LinkedIn</u> | <u>Portfolio</u>

Motivated Full Stack Web Developer with hands-on experience in building responsive, user-focused web applications and solutions. Specializing in end-to-end development processes and scalable architecture. Adept at collaborating with teams, troubleshooting issues, and refining functionality based on performance data and user feedback to enhance usability and system efficiency.

SKILLS & COMPETENCIES

Technical Tools: HTML / CSS, JavaScript, React, React Native, Next.js, Tailwind CSS, MongoDB, PostgreSQL, TypeScript, Node.js, Express.js, Supabase, Git & GitHub

Competencies: Responsive Design, API Integration, CRUD Operations, Authentication, Database Management, Debugging, Deployment, Version Control, Mobile App Development, Cross-Platform UI Design, Real-Time Data Handling, State Management, FinTech Development, Gaming Platform Development, Enterprise Architecture

EXPERIENCE

Frontend Developer | BAJIKAR - Premium Casino & Sports Betting Platform
January 2024 – December 2024

Developed frontend of enterprise-grade online casino platform with 6,300+ games, live dealers, and cryptocurrency integration.

- Built responsive UI using Next.js 15 and React 19 with TanStack React Query for state management.
- Integrated multi-currency and cryptocurrency payment interfaces with KYC compliance workflows.
- Implemented gaming UI for live dealer rooms and custom BAJIKAR Originals with real-time features.

Highlight Skills: Next.js 15 | React 19 | TypeScript 5 | TanStack React Query | Framer Motion | Multi-Currency Systems | Cryptocurrency Integration | Gaming Platform Architecture

Full Stack Developer | TrueHub - Cryptocurrency Investment Platform
March 2022 – November 2024

Built cryptocurrency investment platform with 8-tier packages, multi-level referral system, and multi-crypto wallet support.

- Developed full-stack architecture using Next.js 15 (Vercel) and Node.js backend (DigitalOcean) with MongoDB.
- Implemented multi-cryptocurrency support (Bitcoin, Ethereum, USDT, TON, BNB, Solana) with automated earnings.
- Built email automation system with Resend for investment confirmations and withdrawal processing.

Highlight Skills: Next.js 15 | Node.js | MongoDB | Distributed Deployment | Cryptocurrency Integration | Email Automation | KYC Compliance | Multi-Level Referral Systems

Mobile Application Developer | RoofSilo Mobile CRM
June 2023 – March 2024

Built React Native CRM mobile app for roofing companies with real-time messaging, calendar sync, and business analytics.

- Developed cross-platform app using React Native with Expo SDK for SMS, email, and Facebook messaging.
- Integrated Google Calendar sync, appointment scheduling, and KPI tracking with performance visualization.
- Implemented Zustand state management and React Query with Convex backend and Clerk authentication.

Highlight Skills: React Native | Expo SDK | TypeScript | Zustand | React Query | Convex | Real-Time Messaging | Calendar Integration | Mobile UI/UX

Full Stack Developer | SwiftPOS - Comprehensive Point of Sale System
August 2021 – May 2023

Developed comprehensive POS system with real-time inventory management, barcode scanning, and multi-terminal synchronization.

- Built React Native app with Expo SDK for cart management, stock validation, and digital receipts.
- Implemented barcode scanning, real-time inventory tracking, and automated low stock alerts.
- Designed multi-tenant PostgreSQL architecture with Docker and Socket.io for real-time sync.

Highlight Skills: React Native | Expo SDK | TypeScript (24k+ lines) | Supabase | PostgreSQL | Docker | Socket.io | Barcode Integration | Multi-Tenant Architecture

EDUCATION

Full Stack Web Development Certificate
2023

W3Schools

Bachelor's in Philosophy (Honours, 3rd Year)
2020 - 2024

Kushtia Islamia College
